

SPECIFIC PERFORMANCE REAL ESTATE SALES CONTRACT

THIS CONTRACT made and entered into this 15th day of July, 2026 by and between
The Estate of Barbara J. Ingle of Knoxville, State of TN hereinafter called "Seller(s)", and
_____ of _____, State of _____ hereinafter called "Buyer(s)":

WITNESSETH: That the Buyer(s) hereby agrees to purchase and the Seller(s) hereby agrees to sell, subject to the terms, conditions and for the consideration hereinafter set forth, the following real property: Located in Knox County, Tennessee, and being further described real property as follows: 3610 Sprucewood Road, Knoxville, TN 37921 – Parcel/Tax ID: 080NB025

1) **EARNEST MONEY:** Buyer(s) immediately upon conclusion of the bidding will deposit with POWELL AUCTION & REALTY, LLC, of Knoxville, Tennessee, hereinafter called "Agent", the sum of \$ _____, as earnest money to guarantee the performance by Buyer(s) hereunder and which will be applied as partial payment of purchase price. Both parties agree that Agent shall deposit and hold Earnest Money in an escrow account and will be disbursed pursuant to the terms of this contract. IF buyer has purchased online, Earnest Money payment is to be made within 48 hours of sale conclusion.

2) **PURCHASE PRICE & TERMS:** Buyer(s) agree to pay and Seller(s) agree to accept the sum of \$ _____. Upon the following terms: the bid price of \$ _____ plus the buyer's premium in the amount of \$ _____, together will be the total purchase price to be paid by the Buyer(s), PAID IN US DOLLARS. Property sold "AS- IS, WHERE-IS WITH ALL FAULTS", without any warranties expressed, implied, as to condition or title. Sale is NOT contingent upon financing. Balance to be paid in full at closing. Buyer is purchasing with any remaining personal property conveying with the property to the Buyer. **Attached Auction Terms & Conditions and any additional documents pertaining to the sale are part of the Sales Contract.**

3) **POSSESSION:** Possession of real property to be given AT CLOSING.

4) **TITLE TRANSFER:** For the above consideration, Seller (s) agrees to give a good and merchantable title by Deed, free and clear of all encumbrances except: **NONE**. Title to be conveyed subject to all prior restrictions, easements, conditions, encumbrances, condemnation, right of ways, joint permanent easements, covenants or restrictions of record, zoning ordinances or laws of any government authority, status of mineral rights, status of oil and gas rights, or any type leases or assignments, taxes of any type, properties in FEMA flood zone, and other matters recorded or unrecorded, known or unknown. Mobile Homes Are Sold WITHOUT TITLE. Buyer shall pay, but not limited to: HOA requirements, Buyers Occurred expense, ALL Transfer Fees and or Membership Fees, if applicable.

5) **DEED:** Deed shall be made to: _____.

6) **CLOSING DATE:** ALL parties agree the closing date of this sale shall be on or before **August 14th, 2026**. The Seller reserves the option to extend the closing 30 days if needed to resolve title issues without further notice.

7) **TAXES:** Property taxes shall be prorated as of CLOSING.

8) **BUYER(S)' AS-IS ACKNOWLEDGEMENT:** The property is sold "AS-IS, WHERE-IS and WITH ALL FAULTS", without any warranties expressed, implied or guarantees of any kind or accuracy to information. Buyer accepts all faults and defects of the property; whether known or unknown, disclosed or undisclosed, presently existing or that may hereafter arise. Purchase is not contingent upon viewing the property after purchasing. By bidding, the Buyer is agreeing that they have had the opportunity to inspect the property prior to bidding and have inspected the property and all appurtenances thereto and are agreeing that they will sign the sales contract and other required documents within 12 hours of being provided said documents for signing. It is further agreed that this contract & terms contains the entire agreement between the parties and except as contained herein and that this property is purchased on an "AS-IS, WHERE-IS and with ALL FAULTS" basis. All announcements made at the auction take precedence over all other advertising and/or any type and/or kind of material.

9) **AGENCY DISCLOSURE:** Powell Auction & Realty LLC, its auctioneer(s) and employee(s) are acting as Agent(s) and represent the Seller(s) and is compensated by the Seller(s) in this transaction.

10) **RISK OF LOSS:** Risk of loss shall remain with the Seller(s) until closing. In the event any improvements to the property be destroyed or damaged by fire or other destructive force which cannot be repaired prior to closing, this contract may be voided at the option of the Buyer(s) and the earnest money shall be returned to Buyer(s).

11) **FAILURE TO CLOSE:**

(A) If Seller(s) fails to convey the property as provided in this contract: Buyer(s) may exercise legal remedies including suit for specific performances or damages. Agent may sue Seller(s) to recover loss of commission. Agent may pay Earnest Money into a court of competent jurisdiction, or retain Earnest Money until directed to distribute the same by a court of competent jurisdiction.

(B) If Buyer(s) fail to purchase the property as provided in this contract: Seller(s) may exercise legal remedies including suit for specific performance or damages. Seller(s) may elect to retain Earnest Money deposit as liquidated damages for breach of contract, in this case, it is agreed that Agent may retain from such Earnest Money deposit an amount not greater than his total commission of the sale had been consummated and the residue, if any, will be paid to Seller(s).

(C) Buyer(s) and Seller(s) further agree that in the event of default by either that results in litigation, that the non-defaulting party may recover reasonable attorney fees and any other court costs, in addition to other damages provided for herein.

12) **CONDITION OF PROPERTY:** The property will be sold by the Seller to the Buyer on an "AS-IS, WHERE-IS and WITH ALL FAULTS" basis. Buyer accepts all faults and defects of the property whether known or unknown, presently existing or that may hereafter arise. Buyer acknowledges and agrees that the Seller and the Agents have not made, does not make and specifically negates and disclaims any representations, warranties, promises, covenants, agreements or guarantees of any kind or character whatsoever, whether expressed or implied, oral or written, past, present or future, or concerning to or with respect to: (i) the value, nature, quality or condition of the property, including without limitation: lease or rent information; noise disturbances; waste and/or septic disposal systems; marked or unmarked cemeteries/burial grounds; soil results for septic disposal systems; city or well water, either availability, connectivity or purity of; timber; soil; earth; rock; caverns; sinkholes; wood destroying organisms or infestations; geology; utilities either availability or connectivity; acreage of parcel; square footage or condition of structure; any improvements; all photographs; age; any measurements; and working or non-working components; (ii) the income to be derived from the property; (iii) the suitability of the property for any and all activities and uses which buyer may conduct from there; (iv) the compliance of by the property or its operation with any laws, rules, ordinances, or regulations of any governmental authority or body; (v) the habitability, merchantability, marketability, profitability, or fitness for a particular purpose of the property; (vi) the manner or quality of the construction or materials, if any, incorporated into the property; (vii) the manner, quality, state of repair of the property; (viii) the existence of any view from the property or that any existing view will not be obstructed in the future; or (ix) any other matter with respect to the property, and specifically, without limitation, that seller has not made, does not make, and specifically disclaims any representation regarding compliance with the Americans with Disabilities Act or with any environmental protection, pollution or land use laws, rules, orders or requirements; including solid waste (as defined by the U.S. Environmental Protection Agency regulations at 40 c.f.r., part 261), or the disposal or existence of any type or kind of hazardous substance in or on the property, such as mold/fungus, radon, lead, asbestos, landfills, aldehydes/chemicals, pesticides, by-products of methamphetamines, or storage of any type of hazardous waste or substances AND as defined by the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended, and regulations thereunder.

13) **ALL ONLINE BIDDING:** will have the same Terms & Conditions as live auctions, unless otherwise specified.

14) **FAIR HOUSING:** All parties understand that the federal Fair Housing Act of 1989 prohibits the discrimination of housing based on race, color, national origin, religion, sex, familial status, and disability and the Agents will not discriminate against anyone for any reason.

15) **TIME IS OF THE ESSENCE:** Time is of the essence in this contract.

16) **RESPONSIBILITY TO COOPERATE:** Buyer and seller agree to immediately take actions if needed to correct any clerical errors or pay any amounts due; by reason of mistake, clerical errors, omissions, or the result of erroneous information.

17) **WIRE FRAUD WARNING:** Never trust bank wiring instructions sent via email. Always independently confirm instructions in person or via a telephone call to a trusted and verified telephone number. Never wire money without double-checking that the wiring instructions are correct.

All parties hereto bind themselves, their heirs, executors, or administrators to the faithful Performance of this agreement and affix their signatures the day and date first above written.

PROPERTY INSPECTION: We recommend that you preview the property. The property is being sold “AS-IS, WHERE-IS and WITH ALL FAULTS”, without any warranties expressed, implied, or guarantees of any kind or accuracy to information. All information concerning the auction sale was derived from sources believed to be correct, but not guaranteed. Buyer shall rely on his/her own information, judgment and inspection of the property and records. Agent or Seller makes no warranty as to square footage, acreage or age. All announcements made at the auction take precedence over all other advertising and/or any type and/or kind of material. Title to be conveyed subject to all prior restrictions, easements, conditions, encumbrances, condemnation, right-of-ways, joint permanent easements, covenants or restrictions of record, zoning ordinances or laws of any governmental authority, status of mineral rights, status of oil and gas rights, any type of leases or assignments, taxes of any type, properties located in FEMA Flood Zones, and other matters recorded or unrecorded, known or unknown. Mobile Homes are sold WITHOUT TITLE. By bidding, the Buyer is agreeing that they have had the opportunity to inspect the property prior to bidding and have inspected the property and all appurtenances thereto and are agreeing that they will sign the sales contract and other required documents within 12 hours of being provided said documents for signing.

TERMS: The successful high bidder on this property will be required to sign the Specific Performance Real Estate Contract immediately upon conclusion of the bidding and will make an Earnest Money deposit of Ten Percent (10%) of the total sales price. A Ten Percent (10%) Buyer's Premium will be added to the high bid to establish the total sales price. The balance is to be paid in full at the closing. The contract will NOT be contingent upon financing. If property is residential and applicable, Tennessee Residential Property Exemption and Lead-Based Paint Disclosure Waiver will be a part of the sales contract. Buyer is purchasing with any remaining personal property conveying with the property to the Buyer.

TENANTS: The buyer understands and acknowledges that IF properties are occupied by tenants/previous owner, they are buying the property with the tenants/previous owner **in possession** and purchases the property subject to the rights of tenants/previous owner in possession, and all applicable rules and regulations relating thereto. Seller and Auctioneer make no representations or warranties regarding the same or on rent or rental income.

TAXES: Current taxes will be prorated as of the date of closing.

CONDUCT OF THE AUCTION: Conduct of the auction and increments of bidding are at the discretion of the Auctioneer. The Auctioneer's decision is final in the event of a dispute over any matter. The Auctioneer reserves the right to accept bids in any increments he deems to be in the best interest of his client, and reserves the right to waive any previously announced requirements. Bid rigging and bid suppression schemes are violations of the Sherman Antitrust Act and are deemed illegal and punishable as a federal felony.

CLOSING: Deed closing will take place within specified amount of time, from the day of the auction. Buyer will be advised as to the day and location of closing. Customary title closing cost will be split between the Buyer and Seller. Seller will pay for deed preparation. Title opinion, title insurance, transfer taxes and recording fees are a Buyer's expense.

WORKING WITH A REAL ESTATE PROFESSIONAL

Pursuant to the Tennessee Real Estate Broker License Act, every Real Estate Licensee owes the following duties to every Buyer and Seller, Tenant and Landlord (collectively “Buyers” and “Sellers”):

1. To diligently exercise reasonable skill and care in providing services to all parties to the transaction;
2. To disclose to each party to the transaction any Adverse Facts of which Licensee has actual notice or knowledge;
3. To maintain for each party in a transaction the confidentiality of any information obtained by a Licensee prior to disclosure to all parties of a written agency agreement entered into by the Licensee to represent either or both parties in the transaction. This duty of confidentiality extends to any information which the party would reasonably expect to be held in confidence, except for any information required by law to be disclosed. This duty survives both the subsequent establishment of an agency relationship and the closing of the transaction;
4. To provide services to each party to the transaction with honesty and good faith;
5. To disclose to each party to the transaction timely and accurate information regarding market conditions that might affect such transaction only when such information is available through public records and when such information is requested by a party;
6. To give timely account for earnest money deposits and all other property received from any party to a transaction; and
7. A) To refrain from engaging in self-dealing or acting on behalf of Licensee’s immediate family, or on behalf of any other individual, organization or business entity in which Licensee has a personal interest without prior disclosure of such personal interest and the timely written consent of all parties to the transaction; and
B) To refrain from recommending to any party to the transaction the use of services of another individual, organization or business entity in which the Licensee has an interest or from whom the Licensee may receive a referral fee or other compensation for the referral, other than referrals to other Licensees to provide real estate services, without timely disclosure to the party who receives the referral, the Licensee’s interest in such a referral or the fact that a referral fee may be received.

In addition to the above, the Licensee has the following duties to Client if the Licensee has become an Agent or Designated Agent in a transaction:

8. Obey all lawful instructions of the client when such instructions are within the scope of the agency agreement between the Licensee and Licensee’s client;
9. Be loyal to the interests of the client. Licensee must place the interests of the client before all others in negotiation of a transaction and in other activities, except where such loyalty/duty would violate Licensee’s duties to a customer in the transaction; and
10. Unless the following duties are specifically and individually waived in writing by a client, Licensee shall assist the client by:
 - A) Scheduling all property showings on behalf of the client;
 - B) Receiving all offers and counter offers and forwarding them promptly to the client;
 - C) Answering any questions that the client may have in negotiation of a successful purchase agreement within the scope of the Licensee’s expertise; and
 - D) Advising the client as to whatever forms, procedures and steps are needed after execution of the purchase agreement for a successful closing of the transaction.

Upon waiver of any of the above duties contained in 10. above, a consumer must be advised in writing by such consumer’s agent that the consumer may not expect or seek assistance from any other licensees in the transaction for the performance of said duties.

41 **Responsibilities of Sellers and Buyers regarding presence of Recording Devices:**

42 Seller is responsible for compliance with state or federal law regarding usage of video or audio recording devices
43 while marketing or showing the property. Seller should seek legal advice regarding their rights or limitations related
44 to their actions.

45 Buyer is advised of the possibility that some properties may utilize security devices that record physical movements
46 or audio conversations. Therefore, Buyers should limit making comments concerning the value, features, or condition
47 while viewing any property.

AN EXPLANATION OF TERMS

48 **Facilitator/Transaction Broker (not an agent for either party).** The Licensee is not working as an agent for either party in
49 this consumer's prospective transaction. A Facilitator may advise either or both of the parties to a transaction but cannot be
50 considered a representative or advocate of either party. "Transaction Broker" may be used synonymously with, or in lieu of,
51 "Facilitator" as used in any disclosures, forms or agreements. [By law, any licensee or company who has not entered into a
52 written agency agreement with either party in the transaction is considered a Facilitator or Transaction Broker until such time
53 as an agency agreement is established.]

54 **Agent for the Seller.** The Licensee's company is working as an agent for the property seller and owes primary loyalty to the
55 seller. Even if the Licensee is working with a prospective buyer to locate property for sale, rent, or lease, the Licensee and
56 licensee's company are legally bound to work in the best interests of any property owners whose property is shown to this
57 prospective buyer. An agency relationship of this type cannot, by law, be established without a written agency agreement.

58 **Agent for the Buyer.** The Licensee's company is working as an agent for the prospective buyer, owes primary loyalty to the
59 buyer, and shall work as an advocate for the best interests of the buyer. An agency relationship of this type cannot, by law, be
60 established without a written buyer agency agreement.

61 **Disclosed Dual Agent (for both parties).** Refers to a situation in which the Licensee has agreements to provide services as
62 an agent to more than one party in a specific transaction and in which the interests of such parties are adverse. This agency
63 status may only be employed upon full disclosure to each party and with each party's informed consent.

64 **Designated Agent for the Seller.** The individual Licensee that has been assigned by the Managing Broker and is working as
65 an agent for the Seller or property owner in this consumer's prospective transaction, to the exclusion of all other licensees in
66 licensee's company. Even if someone else in the Licensee's company represents a possible buyer for this Seller's property, the
67 Designated Agent for the Seller shall continue to work as an advocate for the best interests of the Seller or property owner. An
68 agency relationship of this type cannot, by law, be established without a written agency agreement.

69 **Designated Agent for the Buyer.** The individual Licensee that has been assigned by the Managing Broker and is working as
70 an agent for the Buyer in this consumer's prospective transaction, to the exclusion of all other licensees in the company. Even
71 if someone else in the Licensee's company represents a seller in whose property the Buyer is interested, the Designated Agent
72 for the Buyer shall continue to work as an advocate for the best interests of the Buyer. An agency relationship of this type
73 cannot, by law, be established without a written agency agreement.

74 **Adverse Facts.** "Adverse Facts" means conditions or occurrences generally recognized by competent licensees that have a
75 negative impact on the value of the real estate, significantly reduce the structural integrity of improvements to real property or
76 present a significant health risk to occupants of the property.

77 **Confidentiality.** By law, every licensee is obligated to protect some information as confidential. This includes any information
78 revealed by a consumer which may be helpful to the other party IF it was revealed by the consumer BEFORE the Licensee
79 disclosed an agency relationship with that other party. AFTER the Licensee discloses that licensee has an agency relationship
80 with another party, any such information which the consumer THEN reveals must be passed on by the Licensee to that other
81 party.

TENNESSEE RESIDENTIAL PROPERTY CONDITION EXEMPTION

1 Property Address: 3610 Sprucewood Road Knoxville, TN 37921
 2 Seller: The Estate of Barbara J. Ingle

3 The Tennessee Residential Property Disclosure Act requires sellers of residential real property with one to four dwelling units
 4 to furnish to a buyer one of the following: (1) a residential property disclosure statement (the "Disclosure"), or (2) a residential
 5 property disclaimer statement (permitted only where the buyer waives the required Disclosure). Some property transfers may
 6 be exempt from this requirement (See Tenn. Code Ann. § 66-5-209). The following is a summary of the buyers' and sellers'
 7 rights and obligations under the Act. A complete copy of the Act may be found at Tenn. Code Ann. § 66-5-201, et seq.

- 8 1. Sellers must disclose all known material defects, and must answer the questions on the Disclosure form in good faith to
 9 the best of the seller's knowledge as of the Disclosure date.
- 10 2. Sellers must give the buyers the Disclosure form before the acceptance of a purchase contract.
- 11 3. Sellers must inform the buyers, at or before closing, of any inaccuracies or material changes in the condition that have
 12 occurred since the time of the initial Disclosure, or certify that there are no changes.
- 13 4. Sellers may give the buyers a report or opinion prepared by a professional inspector or other expert(s), or certain
 14 information provided by a public agency, in lieu of responding to some or all of the questions on the form (See Tenn. Code
 15 Ann. § 66-5-204).
- 16 5. Sellers are not required to have a home inspection or other investigation in order to complete the Disclosure form.
- 17 6. Sellers are not required to repair any items listed on the Disclosure form or on any past or future inspection report unless
 18 agreed to in the purchase contract.
- 19 7. Sellers involved in the first sale of a dwelling must disclose the amount of any impact fees or adequate facility taxes paid.
- 20 8. Sellers are not required to disclose if any occupant was HIV-positive, or had any other disease not likely to be transmitted
 21 by occupying a home, or whether the home had been the site of a homicide, suicide or felony, or act or occurrence which
 22 had no effect on the physical structure of the property.
- 23 9. Sellers may provide an "as is", "no representations or warranties" disclaimer statement in lieu of the Disclosure form only
 24 if the buyer waives the right to the required disclosure, otherwise the sellers must provide the completed Disclosure form
 25 (See Tenn. Code Ann. § 66-5-202).
- 26 10. Sellers may be exempt from having to complete the Disclosure form in certain limited circumstances (e.g. public auctions,
 27 court orders, some foreclosures and bankruptcies, new construction with written warranty, or owner has not resided on the
 28 property at any time within the prior 3 years). (See Tenn. Code Ann. § 66-5-209).
- 29 11. Buyers are advised to include home, wood infestation, well, water sources, septic system, lead-based paint, radon, mold,
 30 and other appropriate inspection contingencies in the contract, as the Disclosure form is not a warranty of any kind by the
 31 seller, and is not a substitute for any warranties or inspections the buyer may desire to purchase.
- 32 12. Any repair of disclosed defects must be negotiated and addressed in the Purchase and Sale Agreement; otherwise, seller is
 33 not required to repair any such items.
- 34 13. Buyers may, but do not have to, waive their right to receive the Disclosure form from the sellers if the sellers provide a
 35 disclaimer statement with no representations or warranties. (See Tenn. Code Ann. § 66-5-202).
- 36 14. Remedies for misrepresentations or nondisclosure in a Property Condition Disclosure statement may be available to buyer
 37 and are set out fully in Tenn. Code Ann. § 66-5-208. Buyer should consult with an attorney regarding any such matters.
- 38 15. Representations in the Disclosure form are those of the sellers only, and not of any real estate licensee, although licensees
 39 are required to disclose to all parties adverse facts of which the licensee has actual knowledge or notice.
- 40 16. Pursuant to Tenn. Code Ann. § 47-18-104(b), sellers of newly constructed residences on a septic system are prohibited
 41 from knowingly advertising or marketing a home as having more bedrooms than are permitted by the subsurface sewage
 42 disposal system permit.
- 43 17. Sellers must disclose the presence of any known exterior injection well, the presence of any known sinkhole(s), the results
 44 of any known percolation test or soil absorption rate performed on the property that is determined or accepted by the

Department of Environment and Conservation, and whether the property is located within a Planned Unit Development as defined by Tenn. Code Ann. § 66-5-213 and, if requested, provide buyers with a copy of the development's restrictive covenants, homeowner bylaws and master deed. Sellers must also disclose if they have knowledge that the residence has ever been moved from an existing foundation to another foundation.

The Buyers and Sellers involved in the current or prospective real estate transaction for the property listed above acknowledge that they were informed of their rights and obligations regarding Residential Property Disclosures, and that this information was provided by the real estate licensee(s) prior to the completion or reviewing of a Tennessee Residential Property Condition Disclosure, a Tennessee Residential Property Condition Disclaimer Statement, or a Tennessee Residential Property Condition Exemption. Buyers and Sellers also acknowledge that they were advised to seek the advice of an attorney on any legal questions they may have regarding this information or prior to taking any legal actions.

The Tennessee Residential Property Disclosure Act states that anyone transferring title to residential real property must provide information about the condition of the property. This completed form constitutes that disclosure by the Seller. The information contained in the disclosure is the representation of the owner and not the representation of the real estate licensee or sales person, if any. This is not a warranty or a substitute for any professional inspections or warranties that the purchasers may wish to obtain.

Buyers and Sellers should be aware that any sales agreement executed between the parties shall supersede this form as to the terms of sale, property included in the sale and any obligations on the part of the seller to repair items identified below and/or the obligation of the buyer to accept such items "as is."

The undersigned Seller of the property described as 3610 Sprucewood Road Knoxville, TN 37921 does hereby notify Buyer that said property is being offered without a Residential Property Condition Disclosure Statement as provided by the Tennessee Residential Property Disclosure Act. This transfer is excluded under Tenn. Code Ann. § 66-5-209 for the following reason(s):

- ☐ This is a transfer pursuant to court order including, but not limited to, transfers ordered by a court in the administration of an estate, transfers pursuant to a writ of execution, transfers by foreclosure sale, transfers by a trustee in a bankruptcy, transfers by eminent domain and transfers resulting from a decree of specific performance.
- ☐ This is a transfer to a beneficiary of a deed of trust by a trustor or successor in interest who is in default; transfers by a trustee under a deed of trust pursuant to a foreclosure sale, or transfers by a beneficiary under a deed of trust who has acquired the real property at a sale conducted pursuant to a foreclosure sale under a deed of trust or has acquired the real property by a deed in lieu of foreclosure.
- ☒ This is a transfer by a fiduciary in the course of the administration of a decedent's estate, guardianship, conservatorship or trust.
- ☐ This is a transfer from one (1) or more co-owners solely to one (1) or more co-owners. This provision is intended to apply and only does apply in situations where ownership is by a tenancy by the entirety, a joint tenancy or a tenancy in common and the transfer shall be made from one (1) or more of the owners to another owner or co-owners holding property either as a joint tenancy, tenancy in common or tenancy by the entirety.
- ☐ This is a transfer made by virtue of the record owner's failure to pay federal, state or local taxes.
- ☐ This is a transfer between spouses resulting from a decree of divorce or a property settlement stipulation.
- ☐ This is a transfer made solely to any combination of a spouse or a person or persons in the lineal line of consanguinity of one (1) or more of the transferors.
- ☐ This is a transfer to or from any governmental entity of public or quasi-public housing authority or agency.
- ☐ This is a transfer involving the first sale of a dwelling provided that the builder offers a written warranty.
- ☒ This is a transfer of any property sold at public auction.
- ☒ This is a transfer of any property where the owner has not resided on the property at any time within three (3) years prior to the date of transfer.
- ☐ This is a transfer from a debtor in a chapter 7 or a chapter 13 bankruptcy to a creditor or third party by a deed in lieu of foreclosure or by a quitclaim deed.

Pursuant to Tenn. Code Ann. § 66-5-212, Sellers are required to disclose, in writing, the presence of any known exterior injection well on the Property, whether the Sellers have knowledge that any single family residence on the Property has ever been moved from an existing foundation to another foundation, whether the Sellers have knowledge of any percolation tests or soil absorption rates performed on the Property that are determined or accepted by the Tennessee Department of Environment and Conservation and the results of said tests and/or rates, and the presence of any known sinkholes. Sellers, pursuant to Tenn. Code Ann. § 66-5-213, are also required to disclose in writing if the Property is located in a Planned Unit Development and upon request, provide buyers with a copy of the development's restrictive covenants, homeowner bylaws and master deed.

Are You Planning to Buy or Rent a Home Built Before 1978?

Did you know that many homes built before 1978 have **lead-based paint**? Lead from paint, chips, and dust can pose serious health hazards.

Read this entire brochure to learn:

- How lead gets into the body
- How lead affects health
- What you can do to protect your family
- Where to go for more information

Before renting or buying a pre-1978 home or apartment, federal law requires:

- Sellers must disclose known information on lead-based paint or lead-based paint hazards before selling a house.
- Real estate sales contracts must include a specific warning statement about lead-based paint. Buyers have up to 10 days to check for lead.
- Landlords must disclose known information on lead-based paint or lead-based paint hazards before leases take effect. Leases must include a specific warning statement about lead-based paint.

If undertaking renovations, repairs, or painting (RRP) projects in your pre-1978 home or apartment:

- Read EPA's pamphlet, *The Lead-Safe Certified Guide to Renovate Right*, to learn about the lead-safe work practices that contractors are required to follow when working in your home (see page 12).

Simple Steps to Protect Your Family from Lead Hazards

If you think your home has lead-based paint:

- Don't try to remove lead-based paint yourself.
- Always keep painted surfaces in good condition to minimize deterioration.
- Get your home checked for lead hazards. Find a certified inspector or risk assessor at [epa.gov/lead](https://www.epa.gov/lead).
- Talk to your landlord about fixing surfaces with peeling or chipping paint.
- Regularly clean floors, window sills, and other surfaces.
- Take precautions to avoid exposure to lead dust when remodeling.
- When renovating, repairing, or painting, hire only EPA- or state-approved Lead-Safe certified renovation firms.
- Before buying, renting, or renovating your home, have it checked for lead-based paint.
- Consult your health care provider about testing your children for lead. Your pediatrician can check for lead with a simple blood test.
- Wash children's hands, bottles, pacifiers, and toys often.
- Make sure children eat healthy, low-fat foods high in iron, calcium, and vitamin C.
- Remove shoes or wipe soil off shoes before entering your house.

Lead Gets into the Body in Many Ways

Adults and children can get lead into their bodies if they:

- Breathe in lead dust (especially during activities such as renovations, repairs, or painting that disturb painted surfaces).
- Swallow lead dust that has settled on food, food preparation surfaces, and other places.
- Eat paint chips or soil that contains lead.

Lead is especially dangerous to children under the age of 6.

- At this age, children's brains and nervous systems are more sensitive to the damaging effects of lead.
- Children's growing bodies absorb more lead.
- Babies and young children often put their hands and other objects in their mouths. These objects can have lead dust on them.

Women of childbearing age should know that lead is dangerous to a developing fetus.

- Women with a high lead level in their system before or during pregnancy risk exposing the fetus to lead through the placenta during fetal development.

Health Effects of Lead

Lead affects the body in many ways. It is important to know that even exposure to low levels of lead can severely harm children.

In children, exposure to lead can cause:

- Nervous system and kidney damage
- Learning disabilities, attention-deficit disorder, and decreased intelligence
- Speech, language, and behavior problems
- Poor muscle coordination
- Decreased muscle and bone growth
- Hearing damage

While low-lead exposure is most common, exposure to high amounts of lead can have devastating effects on children, including seizures, unconsciousness, and in some cases, death.

Although children are especially susceptible to lead exposure, lead can be dangerous for adults, too.

In adults, exposure to lead can cause:

- Harm to a developing fetus
- Increased chance of high blood pressure during pregnancy
- Fertility problems (in men and women)
- High blood pressure
- Digestive problems
- Nerve disorders
- Memory and concentration problems
- Muscle and joint pain

Check Your Family for Lead

Get your children and home tested if you think your home has lead.

Children's blood lead levels tend to increase rapidly from 6 to 12 months of age, and tend to peak at 18 to 24 months of age.

Consult your doctor for advice on testing your children. A simple blood test can detect lead. Blood lead tests are usually recommended for:

- Children at ages 1 and 2
- Children or other family members who have been exposed to high levels of lead
- Children who should be tested under your state or local health screening plan

Your doctor can explain what the test results mean and if more testing will be needed.

Where Lead-Based Paint Is Found

In general, the older your home or childcare facility, the more likely it has lead-based paint.¹

Many homes, including private, federally-assisted, federally-owned housing, and childcare facilities built before 1978 have lead-based paint. In 1978, the federal government banned consumer uses of lead-containing paint.²

Learn how to determine if paint is lead-based paint on page 7.

Lead can be found:

- In homes and childcare facilities in the city, country, or suburbs,
- In private and public single-family homes and apartments,
- On surfaces inside and outside of the house, and
- In soil around a home. (Soil can pick up lead from exterior paint or other sources, such as past use of leaded gas in cars.)

Learn more about where lead is found at [epa.gov/lead](https://www.epa.gov/lead).

¹ “Lead-based paint” is currently defined by the federal government as paint with lead levels greater than or equal to 1.0 milligram per square centimeter (mg/cm²), or more than 0.5% by weight.

² “Lead-containing paint” is currently defined by the federal government as lead in new dried paint in excess of 90 parts per million (ppm) by weight.

Identifying Lead-Based Paint and Lead-Based Paint Hazards

Deteriorated lead-based paint (peeling, chipping, chalking, cracking, or damaged paint) is a hazard and needs immediate attention. **Lead-based paint** may also be a hazard when found on surfaces that children can chew or that get a lot of wear and tear, such as:

- On windows and window sills
- Doors and door frames
- Stairs, railings, banisters, and porches

Lead-based paint is usually not a hazard if it is in good condition and if it is not on an impact or friction surface like a window.

Lead dust can form when lead-based paint is scraped, sanded, or heated. Lead dust also forms when painted surfaces containing lead bump or rub together. Lead paint chips and dust can get on surfaces and objects that people touch. Settled lead dust can reenter the air when the home is vacuumed or swept, or when people walk through it. EPA currently defines the following levels of lead in dust as hazardous:

- 10 micrograms per square foot ($\mu\text{g}/\text{ft}^2$) and higher for floors, including carpeted floors
- 100 $\mu\text{g}/\text{ft}^2$ and higher for interior window sills

Lead in soil can be a hazard when children play in bare soil or when people bring soil into the house on their shoes. EPA currently defines the following levels of lead in soil as hazardous:

- 400 parts per million (ppm) and higher in play areas of bare soil
- 1,200 ppm (average) and higher in bare soil in the remainder of the yard

Remember, lead from paint chips—which you can see—and lead dust—which you may not be able to see—both can be hazards.

The only way to find out if paint, dust, or soil lead hazards exist is to test for them. The next page describes how to do this.

Checking Your Home for Lead

You can get your home tested for lead in several different ways:

- A lead-based paint **inspection** tells you if your home has lead-based paint and where it is located. It won't tell you whether your home currently has lead hazards. A trained and certified testing professional, called a lead-based paint inspector, will conduct a paint inspection using methods, such as:
 - Portable x-ray fluorescence (XRF) machine
 - Lab tests of paint samples
- A **risk assessment** tells you if your home currently has any lead hazards from lead in paint, dust, or soil. It also tells you what actions to take to address any hazards. A trained and certified testing professional, called a risk assessor, will:
 - Sample paint that is deteriorated on doors, windows, floors, stairs, and walls
 - Sample dust near painted surfaces and sample bare soil in the yard
 - Get lab tests of paint, dust, and soil samples
- A combination inspection and risk assessment tells you if your home has any lead-based paint and if your home has any lead hazards, and where both are located.

Be sure to read the report provided to you after your inspection or risk assessment is completed, and ask questions about anything you do not understand.

Checking Your Home for Lead, continued

In preparing for renovation, repair, or painting work in a pre-1978 home, Lead-Safe Certified renovators (see page 12) may:

- Take paint chip samples to determine if lead-based paint is present in the area planned for renovation and send them to an EPA-recognized lead lab for analysis. In housing receiving federal assistance, the person collecting these samples must be a certified lead-based paint inspector or risk assessor
- Use EPA-recognized tests kits to determine if lead-based paint is absent (but not in housing receiving federal assistance)
- Presume that lead-based paint is present and use lead-safe work practices

There are state and federal programs in place to ensure that testing is done safely, reliably, and effectively. Contact your state or local agency for more information, visit epa.gov/lead, or call **1-800-424-LEAD (5323)** for a list of contacts in your area.³

³ Hearing- or speech-challenged individuals may access this number through TTY by calling the Federal Relay Service at 1-800-877-8339.

What You Can Do Now to Protect Your Family

If you suspect that your house has lead-based paint hazards, you can take some immediate steps to reduce your family's risk:

- If you rent, notify your landlord of peeling or chipping paint.
- Keep painted surfaces clean and free of dust. Clean floors, window frames, window sills, and other surfaces weekly. Use a mop or sponge with warm water and a general all-purpose cleaner. (Remember: never mix ammonia and bleach products together because they can form a dangerous gas.)
- Carefully clean up paint chips immediately without creating dust.
- Thoroughly rinse sponges and mop heads often during cleaning of dirty or dusty areas, and again afterward.
- Wash your hands and your children's hands often, especially before they eat and before nap time and bed time.
- Keep play areas clean. Wash bottles, pacifiers, toys, and stuffed animals regularly.
- Keep children from chewing window sills or other painted surfaces, or eating soil.
- When renovating, repairing, or painting, hire only EPA- or state-approved Lead-Safe Certified renovation firms (see page 12).
- Clean or remove shoes before entering your home to avoid tracking in lead from soil.
- Make sure children eat nutritious, low-fat meals high in iron, and calcium, such as spinach and dairy products. Children with good diets absorb less lead.

Reducing Lead Hazards

Disturbing lead-based paint or removing lead improperly can increase the hazard to your family by spreading even more lead dust around the house.

- In addition to day-to-day cleaning and good nutrition, you can **temporarily** reduce lead-based paint hazards by taking actions, such as repairing damaged painted surfaces and planting grass to cover lead-contaminated soil. These actions are not permanent solutions and will need ongoing attention.
- You can minimize exposure to lead when renovating, repairing, or painting by hiring an EPA- or state-certified renovator who is trained in the use of lead-safe work practices. If you are a do-it-yourselfer, learn how to use lead-safe work practices in your home.
- To remove lead hazards permanently, you should hire a certified lead abatement contractor. Abatement (or permanent hazard elimination) methods include removing, sealing, or enclosing lead-based paint with special materials. Just painting over the hazard with regular paint is not permanent control.

Always use a certified contractor who is trained to address lead hazards safely.

- Hire a Lead-Safe Certified firm (see page 12) to perform renovation, repair, or painting (RRP) projects that disturb painted surfaces.
- To correct lead hazards permanently, hire a certified lead abatement contractor. This will ensure your contractor knows how to work safely and has the proper equipment to clean up thoroughly.

Certified contractors will employ qualified workers and follow strict safety rules as set by their state or by the federal government.

Reducing Lead Hazards, continued

If your home has had lead abatement work done or if the housing is receiving federal assistance, once the work is completed, dust cleanup activities must be conducted until clearance testing indicates that lead dust levels are below the following levels:

- 10 micrograms per square foot ($\mu\text{g}/\text{ft}^2$) for floors, including carpeted floors
- 100 $\mu\text{g}/\text{ft}^2$ for interior windows sills
- 400 $\mu\text{g}/\text{ft}^2$ for window troughs

Abatements are designed to permanently eliminate lead-based paint hazards. However, lead dust can be reintroduced into an abated area.

- Use a HEPA vacuum on all furniture and other items returned to the area, to reduce the potential for reintroducing lead dust.
- Regularly clean floors, window sills, troughs, and other hard surfaces with a damp cloth or sponge and a general all-purpose cleaner.

Please see page 9 for more information on steps you can take to protect your home after the abatement. For help in locating certified lead abatement professionals in your area, call your state or local agency (see pages 15 and 16), [epa.gov/lead](https://www.epa.gov/lead), or call 1-800-424-LEAD.

Renovating, Repairing or Painting a Home with Lead-Based Paint

If you hire a contractor to conduct renovation, repair, or painting (RRP) projects in your pre-1978 home or childcare facility (such as pre-school and kindergarten), your contractor must:

- Be a Lead-Safe Certified firm approved by EPA or an EPA-authorized state program
- Use qualified trained individuals (Lead-Safe Certified renovators) who follow specific lead-safe work practices to prevent lead contamination
- Provide a copy of EPA's lead hazard information document, *The Lead-Safe Certified Guide to Renovate Right*

RRP contractors working in pre-1978 homes and childcare facilities must follow lead-safe work practices that:

- **Contain the work area.** The area must be contained so that dust and debris do not escape from the work area. Warning signs must be put up, and plastic or other impermeable material and tape must be used.
- **Avoid renovation methods that generate large amounts of lead-contaminated dust.** Some methods generate so much lead-contaminated dust that their use is prohibited. They are:
 - Open-flame burning or torching
 - Sanding, grinding, planing, needle gunning, or blasting with power tools and equipment not equipped with a shroud and HEPA vacuum attachment
 - Using a heat gun at temperatures greater than 1100°F
- **Clean up thoroughly.** The work area should be cleaned up daily. When all the work is done, the area must be cleaned up using special cleaning methods.
- **Dispose of waste properly.** Collect and seal waste in a heavy duty bag or sheeting. When transported, ensure that waste is contained to prevent release of dust and debris.

To learn more about EPA's requirements for RRP projects, visit epa.gov/getleadsafe, or read *The Lead-Safe Certified Guide to Renovate Right*.

Other Sources of Lead

Lead in Drinking Water

The most common sources of lead in drinking water are lead pipes, faucets, and fixtures.

Lead pipes are more likely to be found in older cities and homes built before 1986.

You can't smell or taste lead in drinking water.

To find out for certain if you have lead in drinking water, have your water tested.

Remember older homes with a private well can also have plumbing materials that contain lead.

Important Steps You Can Take to Reduce Lead in Drinking Water

- Use only cold water for drinking, cooking and making baby formula. Remember, boiling water does not remove lead from water.
- Before drinking, flush your home's pipes by running the tap, taking a shower, doing laundry, or doing a load of dishes.
- Regularly clean your faucet's screen (also known as an aerator).
- If you use a filter certified to remove lead, don't forget to read the directions to learn when to change the cartridge. Using a filter after it has expired can make it less effective at removing lead.

Contact your water company to determine if the pipe that connects your home to the water main (called a service line) is made from lead. Your area's water company can also provide information about the lead levels in your system's drinking water.

For more information about lead in drinking water, please contact EPA's Safe Drinking Water Hotline at 1-800-426-4791. If you have other questions about lead poisoning prevention, call 1-800 424-LEAD.*

Call your local health department or water company to find out about testing your water, or visit [epa.gov/safewater](https://www.epa.gov/safewater) for EPA's lead in drinking water information. Some states or utilities offer programs to pay for water testing for residents. Contact your state or local water company to learn more.

* Hearing- or speech-challenged individuals may access this number through TTY by calling the Federal Relay Service at 1-800-877-8339.

Other Sources of Lead, continued

- **Lead smelters** or other industries that release lead into the air.
- **Your job.** If you work with lead, you could bring it home on your body or clothes. Shower and change clothes before coming home. Launder your work clothes separately from the rest of your family's clothes.
- **Hobbies** that use lead, such as making pottery or stained glass, or refinishing furniture. Call your local health department for information about hobbies that may use lead.
- Old **toys** and **furniture** may have been painted with lead-containing paint. Older toys and other children's products may have parts that contain lead.⁴
- Food and liquids cooked or stored in **lead crystal** or **lead-glazed pottery or porcelain** may contain lead.
- Folk remedies, such as "**greta**" and "**azarcon**," used to treat an upset stomach.

⁴ In 1978, the federal government banned toys, other children's products, and furniture with lead-containing paint. In 2008, the federal government banned lead in most children's products. The federal government currently bans lead in excess of 100 ppm by weight in most children's products.

This document is in the public domain. It may be produced by an individual or organization without permission. Information provided in this booklet is based upon current scientific and technical understanding of the issues presented and is reflective of the jurisdictional boundaries established by the statutes governing the co-authoring agencies. Following the advice given will not necessarily provide complete protection in all situations or against all health hazards that can be caused by lead exposure.

IMPORTANT!

Lead From Paint, Dust, and Soil in and Around Your Home Can Be Dangerous if Not Managed Properly

- Children under 6 years old are most at risk for lead poisoning in your home.
- Lead exposure can harm young children and babies even before they are born.
- Homes, schools, and child care facilities built before 1978 are likely to contain lead-based paint.
- Even children who seem healthy may have dangerous levels of lead in their bodies.
- Disturbing surfaces with lead-based paint or removing lead-based paint improperly can increase the danger to your family.
- People can get lead into their bodies by breathing or swallowing lead dust, or by eating soil or paint chips containing lead.
- People have many options for reducing lead hazards. Generally, lead-based paint that is in good condition is not a hazard (see page 10).

LEAD-BASED PAINT DISCLOSURE

Federal law mandates that Sellers of housing constructed prior to 1978 must complete certain Lead-Based Paint Disclosure requirements. These should be completed before the Buyer makes an offer and certainly before the Seller accepts a purchase offer, otherwise the Buyer may not be obligated under any agreement to purchase such housing.

Lead Warning Statement

Every purchaser of any interest in residential real property on which a residential dwelling was built prior to 1978 is notified that such property may present exposure to lead from lead-based paint that may place young children at risk of developing lead poisoning. Lead poisoning in young children may produce permanent neurological damage, including learning disabilities, reduced intelligence quotient, behavioral problems, and impaired memory. Lead poisoning also poses a particular risk to pregnant women. The Seller of any interest in residential real property is required to provide the Buyer with any information on lead-based paint hazards from risk assessments or inspections in the Seller's possession and notify the Buyer of any known lead-based paint hazards. A risk assessment or inspection for possible lead-based paint hazards is recommended prior to purchase.

DISCLAIMER NOTICE

The Broker and their affiliated licensees (hereinafter collectively “Licensees”) are engaged in bringing together buyers and sellers in real estate transactions. Licensees expressly deny any expertise with respect to advice or informed opinions regarding any of the following matters. This Disclaimer Notice is an express warning to all sellers and buyers that they should not rely on any statement, comment or opinion expressed by any Licensee when making decisions about any of the following matters, including the selection of any professional to provide services on behalf of buyers or sellers. Any professional selected by buyers or sellers should be an “independent, qualified professional”, who complies with all applicable state/local requirements, which may include licensing, insurance, and bonding requirements. It is strongly recommended that buyers include contingency clauses in their offers to purchase with respect to these or any other matters of concern and that buyers, in writing the offer, allow enough time to get an evaluation of the following matters from an independent, qualified professional. The matters listed below are not an exclusive list of actions or circumstances which are not the responsibility of the Licensees with whom you work. These items are examples and are provided only for your guidance and information.

- 1. THE STRUCTURAL OR OTHER CONDITIONS OF THE PROPERTY.** Consult with professional engineers or other independent, qualified professionals to ascertain the existence of structural issues, the condition of synthetic stucco (E.I.F.S.) and/or the overall condition of the property.
- 2. THE CONDITION OF ROOFING.** Consult with a bonded roofing company for any concerns about the condition of the roof.
- 3. HOME INSPECTION.** We strongly recommend that you have a home inspection, which is a useful tool for determining the overall condition of a home including, but not limited to, electrical, heating, air conditioning, plumbing, water-heating systems, fireplaces, windows, doors and appliances. Contact several sources (like the Tennessee Department of Commerce & Insurance (<http://tn.gov/commerce/>), the American Society of Home Inspectors (www.ashi.com), the National Association of Certified Home Inspectors (www.nahi.org), and Home Inspectors of Tennessee Association (www.hita.us) and independently investigate the competency of an inspector, including whether he has complied with State and/or local licensing and registration requirements in your area. The home inspector may, in turn, recommend further examination by a specialist (heating-air-plumbing, etc.). **Failure to inspect typically means that you are accepting the property “as is”.**
- 4. WOOD DESTROYING ORGANISMS, PESTS AND INFESTATIONS.** It is strongly recommended that you use the services of a licensed, professional pest control company to determine the presence of wood destroying organisms (termites, fungus, etc.) or other pests or infestations and to examine the property for any potential damage from such.
- 5. ENVIRONMENTAL HAZARDS.** Environmental hazards, such as, but not limited to: radon gas, mold, asbestos, lead-based paint, hazardous wastes, landfills, byproducts of methamphetamine production, high-voltage electricity, noise levels, etc., require advanced techniques by environmental specialists to evaluate, remediate and/or repair. It is strongly recommended that you secure the services of knowledgeable professionals and inspectors in all areas of environmental concern.
- 6. SQUARE FOOTAGE.** There are multiple sources from which square footage of a property may be obtained. Information is sometimes gathered from tax or real estate records on the property. Square footage provided by builders, real estate licensees, or tax records is only an **estimate** with which to make comparisons, but **it is not guaranteed**. It is advised that you have a licensed appraiser determine actual square footage.
- 7. CURRENT VALUE, INVESTMENT POTENTIAL, OR RESALE VALUE OF THE PROPERTY.** A true estimate of the value can only be obtained through the services of a licensed appraiser. No one, not even a professional appraiser, can know the future value of a property. Unexpected and unforeseeable things happen.

Unauthorized use of the form may result in legal sanctions being brought against the user and should be reported to Tennessee REALTORS® at 615-321-1477.

NOTE: A real estate licensee's Comparative Market Analysis (CMA) or Broker's Price Opinion (BPO), etc., while sometimes used to set an asking price or an offer price, is **not** an appraisal.

- 8. BOUNDARY LINES, EASEMENTS, ENCROACHMENTS, ROAD MAINTENANCE, AND ACREAGE.** A survey can provide helpful information, including whether the road to the home is a public or private road. It is strongly advised that you secure the services of a licensed surveyor for a full-stake boundary survey with all boundary lines, easements, encroachments, flood zones, road information, total acreage, etc., clearly identified. It is also advised that you **not** rely on mortgage loan inspection surveys, previous surveys, plat data, or Multiple Listing Service (MLS) data for this information, even if acceptable to your lender.
- 9. ZONING, CODES, COVENANTS, RESTRICTIONS, AND RELATED ISSUES.** Zoning, codes, covenants, restrictions, home owner association by-laws, special assessments, city ordinances, governmental repair requirements and related issues need to be verified by the appropriate sources in writing. If your projected use requires a zoning or other change, it is recommended that you either wait until the change is **in effect** before committing to a property or provide for this contingency in your Purchase and Sale Agreement.
- 10. UTILITY CONNECTIONS, SEPTIC SYSTEM CAPABILITY, AND RELATED SERVICES.** The availability, adequacy, connection and/or condition of waste disposal (sewer, septic system, etc.), water supply, electric, gas, cable, internet, telephone, or other utilities and related services to the property need to be verified by the appropriate sources in writing (including but not limited to fire protection). You should have a professional check access and/or connection to public sewer and/or public water source and/or the condition of any septic system(s) and/or wells. To confirm that any septic systems are properly permitted for the actual number of bedrooms, it is recommended that sellers and/or buyers request a copy of the information contained in the file for the property maintained by the appropriate governmental permitting authority. If the file for this property cannot be located or you do not understand the information contained in the file, you should seek professional advice regarding this matter. For unimproved land, septic system capability can only be determined by using the services of a professional soil scientist and verifying with the appropriate governmental authorities that a septic system of the desired type, size, location, and cost can be permitted and installed to accommodate the size home that you wish to build.
- 11. FLOODING, DRAINAGE, FLOOD INSURANCE, AND RELATED ITEMS.** It is recommended that you have a civil or geotechnical engineer or other independent expert determine the risks of flooding, drainage or run-off problems, erosion, land shifting, unstable colluvial soil, sinkholes and landfills. The risk of flooding may increase and drainage or storm run-off pathways may change. Be sure to consult with the proper governmental authorities, elevation surveyors, and flood insurance professionals regarding flood and elevation certificates, flood zones, and flood insurance requirements, recommendations and costs.
- 12. CONDEMNATION.** It is recommended that you investigate whether there are any pending or proposed condemnation proceedings or similar matters concerning any portion of the property with the State, County and city/town governments in which the property is located. Condemnation proceedings could result in all or a portion of the property being taken by the government with compensation being paid to the landowner.
- 13. SCHOOL DISTRICTS AND OTHER SCHOOL INFORMATION.** It is advised that you independently confirm school zoning with the appropriate school authorities, as school districts are subject to change. Other school information (rankings, curriculums, student-teacher ratios, etc.) should be confirmed by appropriate sources in writing.
- 14. INFORMATION ABOUT CRIMES, METHAMPHETAMINE PROPERTIES, OR SEX OFFENDERS.** You should consult with local, state and federal law enforcement agencies for information or statistics regarding criminal activity at or near the property, the presence of methamphetamine manufacturing, or for the location of sex offenders in a given area.
- 15. LEGAL AND TAX ADVICE.** You should seek the advice of an attorney and/or certified tax specialist on any legal or tax questions concerning any offers, contracts, issues relating to title or ownership of the property, or any other matters of concern, including those itemized in this Disclaimer Notice. Real estate licensees are **not** legal or tax experts, and therefore cannot advise you in these areas.

91 **16. TITLE INSURANCE EXPENSES.** As the Buyer of real property, you have the right to obtain an Owner's
 92 Title Insurance Policy to protect your ownership. Once purchased, an Owner's Title Insurance Policy protects
 93 you for as long as you own the property (and potentially longer). There are two main types of title insurance
 94 policies available to the Buyer: (a) a Standard policy (which covers many claims affecting the land) or (b) a
 95 "Homeowner's" policy. The Homeowner's policy covers all the claims of a Standard policy – but it is also an
 96 expanded policy providing multiple additional coverages not included in the Standard policy, e.g. post policy
 97 issues such as an attempted fraudulent deed conveyance. Unlike other title protection alternatives (e.g. attorney
 98 title opinion letters) both the Standard and the Homeowner's policy are regulated products provided by
 99 insurance companies licensed under Tennessee law. It is the Buyer's responsibility to seek independent advice
 100 or counsel prior to Closing from Buyer's Closing Agency regarding the availability and coverage provided
 101 under an American Land Title Association Standard Owner's Insurance policy and, if available, a Homeowner's
 102 Title Insurance Policy. For more information, please visit these helpful links: [https://www.alta.org/news-](https://www.alta.org/news-and-publications/)

104 **17. RECOMMENDED INSPECTORS, SERVICE PROVIDERS, OR VENDORS.** The furnishing of any
 105 inspector, service provider or vendor named by the real estate licensee is done only as a convenience and a
 106 courtesy, and does not in any way constitute any warranty, representation, or endorsement. Buyers and sellers
 107 have the option to select any inspectors, service providers or vendors of the buyer's or seller's choice. You
 108 are advised to contact several sources and independently investigate the competency of any inspector,
 109 contractor, or other professional expert, service provider or vendor and to determine compliance with any l
 110 licensing, registration, insurance and bonding requirements in your area.

111 **18. RELIANCE.** You understand that it is your responsibility to determine whether the size, location and condition
 112 of the property are acceptable prior to submitting an Offer on a property. Broker makes no representations as
 113 to suitability of a property to your needs. You acknowledge that any images or other marketing materials
 114 provided by the seller or brokers involved in the transaction electronically or in print may not display the
 115 property's features, flaws, odor(s), or size and that you shall not rely on such images when purchasing a
 116 property.

117 **19. MARKETING MATERIALS.** You acknowledge that photographs, marketing materials, and digital media
 118 used in the marketing of the property may continue to remain in publication after Closing. You agree that
 119 Broker shall not be liable for any uses of photographs, marketing materials or digital media which the Broker
 120 is not in control.

121 **The Buyer/Seller acknowledges that they have not relied upon the advice, casual comments, media**
 122 **representations or verbal representations of any real estate licensee relative to any of the matters itemized**
 123 **above or similar matters. The Buyer/Seller understands that it has been strongly recommended that they**
 124 **secure the services of appropriately credentialed experts and professionals of the buyer's or seller's choice**
 125 **for the advice and counsel about these and similar concerns.**

POWELL

Auction & Realty, LLC WIRE FRAUD WARNING

Criminals use many methods to steal our money, even when we are buying or selling a home – particularly involving wire fund transfers. Scammers typically will send an email that APPEARS to be from your agent, broker, lender, or the closing attorney/closing agency. Be on the lookout for:

- Phony email addresses (e.g., a slight change in the domain name), authentic-looking fake websites, phony fax numbers, texts, calls or social media messages from scammers.
- Any communication requesting information or directing you to a fake website, a criminal's email address or a criminal's bank account.

In preparation for closing, Buyers will often need to wire transfer funds from their personal bank to the closing attorney/closing agency.

NEVER ACCEPT WIRING INSTRUCTIONS FROM YOUR AGENT OR BROKER.

____ Initials ____ Initials

Rather, you should receive wiring instructions prior to closing from the closing attorney/closing agency or your lender. If the instructions are sent by email they should be in a secured manner. **DO NOT TRANSFER FUNDS UNTIL** you have verified the authenticity of the wiring instructions by at least one other independent means, including but not limited to the following:

- Call the phone number you used on all your prior calls (if the number came from a personally recognized or known source), or
- Call the closing attorney/ closing agency or lender after verifying their phone number from a known third party source, such as the entity's official website and/or public directory assistance (do not take the phone number directly from the wiring instruction form you received), or
- Make a personal visit to their office at the address you previously met with them.

If you send wiring instructions by email or any electronic means to anyone at your bank or other financial institution in preparation for closing, **DO NOT TRANSFER ANY FUNDS** until after you verify that the correct instructions were received by a known representative at your financial institution. Also, it is important to confirm with the financial institution that the **WIRE INSTRUCTIONS ARE NOT TO BE SUBSTITUTED WITHOUT YOUR PRIOR CONSENT.** Any wiring instructions sent should be sent in a secured manner. Be especially aware of any request to change any of the original wiring/money transfer information, change in the person you have been working with on the transaction, or a subtle difference in their behavior, speech, or grammar. These are some signs of a potential scam. Wiring instructions for closing attorneys, title companies and lenders rarely if ever change, so any request to change this information should be handled with caution.

If you suspect you may be a victim of wire fraud or that you may have received suspicious phone calls, emails, text messages, faxes, social media messages, emails from a fake address, a change in contact person at your bank or mortgage company, or changes to wire transfer or financing institutions:

- **IMMEDIATELY** call your bank and/or mortgage company at the phone number you used in all prior calls.
- Then, call your agent at the phone number you used in all prior calls.
