1 Pursuant to the Tennessee Real Estate Broker License Act, every Real Estate Licensee owes the following duties to every
2 Buyer and Seller, Tenant and Landlord (collectively "Buyers" and "Sellers"):

- 3 1. To diligently exercise reasonable skill and care in providing services to all parties to the transaction;
- 4 2. To disclose to each party to the transaction any Adverse Facts of which Licensee has actual notice or knowledge;
- 5 3. To maintain for each party in a transaction the confidentiality of any information obtained by a Licensee prior to
6 disclosure to all parties of a written agency agreement entered into by the Licensee to represent either or both parties
7 in the transaction. This duty of confidentiality extends to any information which the party would reasonably expect
8 to be held in confidence, except for any information required by law to be disclosed. This duty survives both the
9 subsequent establishment of an agency relationship and the closing of the transaction;
- 10 4. To provide services to each party to the transaction with honesty and good faith;
- 11 5. To disclose to each party to the transaction timely and accurate information regarding market conditions that might
12 affect such transaction only when such information is available through public records and when such information is
13 requested by a party;
- 14 6. To give timely account for earnest money deposits and all other property received from any party to a transaction; and

21 timely disclosure to the party who receives the referral, the Licensee's interest in such a referral or the fact that a
22 referral fee may be received.

23 In addition to the above, the Licensee has the following duties to Client if the Licensee has become an Agent or

28 a transaction and in other activities, except where such loyalty/duty would violate Licensee's duties to a customer in
29 the transaction; and
- 30 10. Unless the following duties are specifically and individually waived in writing by a client, Licensee shall assist the
31 client by:
 - 32 A) Scheduling all property showings on behalf of the client;

43 while marketing or showing the property. Seller should seek legal advice regarding their rights or limitations related

46 or audio conversations. Therefore, Buyers should limit making comments concerning the value, features, or condition
47 while viewing any property.

AN EXPLANATION OF TERMS

48 **Facilitator/Transaction Broker (not an agent for either party).** The Licensee is not working as an agent for either party in
49 this consumer's prospective transaction. A Facilitator may advise either or both of the parties to a transaction but cannot be
50 considered a representative or advocate of either party. "Transaction Broker" may be used synonymously with, or in lieu of,
51 "Facilitator" as used in any disclosures, forms or agreements. [By law, any licensee or company who has not entered into a
52 written agency agreement with either party in the transaction is considered a Facilitator or Transaction Broker until such time
53 as an agency agreement is established.]

54 **Agent for the Seller.** The Licensee's company is working as an agent for the property seller and owes primary loyalty to the
55 seller. Even if the Licensee is working with a prospective buyer to locate property for sale, rent, or lease, the Licensee and
56 licensee's company are legally bound to work in the best interests of any property owners whose property is shown to this
57 prospective buyer. An agency relationship of this type cannot, by law, be established without a written agency agreement.

58 **Agent for the Buyer.** The Licensee's company is working as an agent for the prospective buyer, owes primary loyalty to the
59 buyer, and shall work as an advocate for the best interests of the buyer. An agency relationship of this type cannot, by law, be
60 established without a written buyer agency agreement.

61 **Disclosed Dual Agent (for both parties).** Refers to a situation in which the Licensee has agreements to provide services as
62 an agent to more than one party in a specific transaction and in which the interests of such parties are adverse. This agency
63 status may only be employed upon full disclosure to each party and with each party's informed consent.

64 **Designated Agent for the Seller.** The individual Licensee that has been assigned by the Managing Broker and is working as
65 an agent for the Seller or property owner in this consumer's prospective transaction, to the exclusion of all other licensees in
66 licensee's company. Even if someone else in the Licensee's company represents a possible buyer for this Seller's property, the
67 Designated Agent for the Seller shall continue to work as an advocate for the best interests of the Seller or property owner. An
68 agency relationship of this type cannot, by law, be established without a written agency agreement.

69 **Designated Agent for the Buyer.** The individual Licensee that has been assigned by the Managing Broker and is working as
70 an agent for the Buyer in this consumer's prospective transaction, to the exclusion of all other licensees in the company. Even
71 if someone else in the Licensee's company represents a seller in whose property the Buyer is interested, the Designated Agent
72 for the Buyer shall continue to work as an advocate for the best interests of the Buyer. An agency relationship of this type
73 cannot, by law, be established without a written agency agreement.

74 **Adverse Facts.** "Adverse Facts" means conditions or occurrences generally recognized by competent licensees that have a
75 negative impact on the value of the real estate, significantly reduce the structural integrity of improvements to real property or
76 present a significant health risk to occupants of the property.

77 **Confidentiality.** By law, every licensee is obligated to protect some information as confidential. This includes any information
78 revealed by a consumer which may be helpful to the other party IF it was revealed by the consumer BEFORE the Licensee
79 disclosed an agency relationship with that other party. AFTER the Licensee discloses that licensee has an agency relationship
80 with another party, any such information which the consumer THEN reveals must be passed on by the Licensee to that other
81 party.

TENNESSEE RESIDENTIAL PROPERTY CONDITION EXEMPTION

1 Property Address: 1265 Roberts Ridge Road Ten Mile, TN 37880
 2 Seller: Quint Bourgeois, Ture Bordei, Noah S. Higdon, James Cox, and Robert Saunders

3 The Tennessee Residential Property Disclosure Act requires sellers of residential real property with one to four dwelling units
 4 to furnish to a buyer one of the following: (1) a residential property disclosure statement (the "Disclosure"), or (2) a residential
 5 property disclaimer statement (permitted only where the buyer waives the required Disclosure). Some property transfers may
 6 be exempt from this requirement (See Tenn. Code Ann. § 66-5-209). The following is a summary of the buyers' and sellers'
 7 rights and obligations under the Act. A complete copy of the Act may be found at Tenn. Code Ann. § 66-5-201, et seq.

- 8 1. Sellers must disclose all known material defects, and must answer the questions on the Disclosure form in good faith to
 the best of the seller's knowledge as of the Disclosure date.
- 9 2. Sellers must give the buyers the Disclosure form before the acceptance of a purchase contract.
- 10 3. Sellers must inform the buyers, at or before closing, of any inaccuracies or material changes in the condition that have
 occurred since the time of the initial Disclosure, or certify that there are no changes.
- 11 4. Sellers may give the buyers a report or opinion prepared by a professional inspector or other expert(s), or certain
 information provided by a public agency, in lieu of responding to some or all of the questions on the form (See Tenn. Code
 Ann. § 66-5-204).
- 12 5. Sellers are not required to have a home inspection or other investigation in order to complete the Disclosure form.
- 13 6. Sellers are not required to repair any items listed on the Disclosure form or on any past or future inspection report unless
 agreed to in the purchase contract.
- 14 7. Sellers involved in the first sale of a dwelling must disclose the amount of any impact fees or adequate facility taxes paid.
- 15 8. Sellers are not required to disclose if any occupant was HIV-positive, or had any other disease not likely to be transmitted
 by occupying a home, or whether the home had been the site of a homicide, suicide or felony, or act or occurrence which
 had no effect on the physical structure of the property.
- 16 9. Sellers may provide an "as is", "no representations or warranties" disclaimer statement in lieu of the Disclosure form only
 if the buyer waives the right to the required disclosure, otherwise the sellers must provide the completed Disclosure form
 (See Tenn. Code Ann. § 66-5-202).
- 17 10. Sellers may be exempt from having to complete the Disclosure form in certain limited circumstances (e.g. public auctions,
 court orders, some foreclosures and bankruptcies, new construction with written warranty, or owner has not resided on the
 property at any time within the prior 3 years). (See Tenn. Code Ann. § 66-5-209).
- 18 11. Buyers are advised to include home, wood infestation, well, water sources, septic system, lead-based paint, radon, mold,
 and other appropriate inspection contingencies in the contract, as the Disclosure form is not a warranty of any kind by the
 seller, and is not a substitute for any warranties or inspections the buyer may desire to purchase.
- 19 12. Any repair of disclosed defects must be negotiated and addressed in the Purchase and Sale Agreement; otherwise, seller is
 not required to repair any such items.
- 20 13. Buyers may, but do not have to, waive their right to receive the Disclosure form from the sellers if the sellers provide a
 disclaimer statement with no representations or warranties. (See Tenn. Code Ann. § 66-5-202).
- 21 14. Remedies for misrepresentations or nondisclosure in a Property Condition Disclosure statement may be available to buyer
 and are set out fully in Tenn. Code Ann. § 66-5-208. Buyer should consult with an attorney regarding any such matters.
- 22 15. Representations in the Disclosure form are those of the sellers only, and not of any real estate licensee, although licensees
 are required to disclose to all parties adverse facts of which the licensee has actual knowledge or notice.

SEPTIC TANK CARE

Residential sewage disposal systems are generally used in rural and unsewered suburban areas. A septic tank system must be properly designed, installed and maintained if reasonable service is to be expected.

A septic tank is a water tight structure in which organic solids are decomposed by natural bacterial processes. The flow of sewage is slowed in its passage through the tank so that larger solids settle to the bottom and accumulate as sludge. Grease and lighter particles rises to the surface and form scum.

The bacteria present in a tank are able to thrive in the absence of oxygen. Such decomposition in the absence of air is called "septic," which led to the naming of the tank. Solids and scum are digested and reduced to a smaller volume by the bacteria in the tank. However, a residue of sludge remains which must be stored during the interval between tank and cleanings.

The partially treated sewage, or effluent, flowing from the tank is still septic and contains large numbers of harmful bacteria and organic matter in a finely divided state or in solution. Foul odors, unsightly conditions and health hazards will develop if this effluent is ponded on the surface of the ground or carried away in open ditches. Final disposal of the effluent in a subsurface soil absorption system or filter is necessary to avoid these problems.

LOCATION

To facilitate inspection and maintenance, it is imperative that the homeowner knows the location of all parts of the disposal system. Such information may be obtained from the local health authority. Details and accurate measurements including the location of the tank, pumps, underground piping, and the absorption system should be shown on a sketch for future reference.

Then local health authority should be consulted to determine the minimum requirements relating to distance between disposal systems and water supply facilities.

MAINTENANCE

The frequency of cleaning depends on the size of the septic tank and the number of people it serves. When a garbage grinder is used, more frequent cleaning will be required. With ordinary use and care, a septic tank may require cleaning ever 2 or 3 years. However in many cases septic tanks can be satisfactorily operated even longer. The homeowner should determine for himself when his tank needs cleaning.

Actual measurement of sludge deposit and scum accumulation is the only method of determining when a tank need to be cleaned.

Scum can be measured with a stick to which a weighted flap has been hinged, or with any device that can be used to feel out the bottom of the scum mat. The stick if forced through the mat, the hinged flap falls into a horizontal position, and the stick is raised until resistance from the bottom of the scum felt. With the same tool, the distance to the bottom of the outlet device can be found.

A long stick wrapped with rough white toweling and lowered to the bottom of the tank will show the depth of sludge and the liquid depth of the tank. The stick should be lowered behind the outlet device to avoid scum particles. After several minutes, if the stick is carefully removed, the sludge line can be distinguished by sludge particles clinging into the toweling.

In two-compartment tanks, measurements should be made near the outlet of the first compartment.

The tank should be cleaned if either (a) The bottom of the scum mat is within 3 inches of the bottom of the outlet device; or (b) sludge comes within the limits specified in the accompanying table.

LIQUID CAPACITY OF TANK GALLONS	LIQUID DEPTH		
	3 feet	4 feet	5 feet
Distance from bottom of outlet device to top of sludge, inches.			
750.....	6	10	13
900.....	4	7	10
1,000.....	4	6	8

Do not allow any person who does not have a health department permit to pump your septic tank. Septic tanks are usually cleaned by companies who make this operation a business. The homeowner should check with the local health department for the names of reputable companies in the area.

There are no known chemicals, yeasts or other substance capable of eliminating or reducing the solids in a septic tank so that cleaning is unnecessary. The use of such product is not necessary for the proper operation of a septic tank.

Septic tanks and absorption systems frequently are damaged by heavy trucks or equipment moving over them. Reference to the location sketch of the system will be found helpful in directing heavy vehicles away from the critical areas. If there is no way to avoid crossing a sewer line, cast iron should be used under the crossing.

The roots of trees and shrubbery may enter the tile lines and clog them completely. When this occurs, the roots can be removed only digging up and cleaning the tile line.

Neglect of the septic tank is the most common cause of damage to soil absorption systems. When the tank is not cleaned, solids build up and are carried over into the absorption system causing clogging of the soil. When this happens the absorption system must be relocated and rebuilt.

23 Inspectors of Tennessee Association (www.hita.us) and independently investigate the competency of an
24 inspector, including whether he has complied with State and/or local licensing and registration requirements in
25 your area. The home inspector may, in turn, recommend further examination by a specialist (heating-air-
26 plumbing, etc.). **Failure to inspect typically means that you are accepting the property "as is".**

27 **4. WOOD DESTROYING ORGANISMS, PESTS AND INFESTATIONS.** It is strongly recommended that
28 you use the services of a licensed, professional pest control company to determine the presence of wood
29 destroying organisms (termites, fungus, etc.) or other pests or infestations and to examine the property for any
30 potential damage from such.

31 **5. ENVIRONMENTAL HAZARDS.** Environmental hazards, such as, but not limited to: radon gas, mold,
32 asbestos, lead-based paint, hazardous wastes, landfills, byproducts of methamphetamine production, high-
33 voltage electricity, noise levels, etc., require advanced techniques by environmental specialists to evaluate,
34 remediate and/or repair. It is strongly recommended that you secure the services of knowledgeable
35 professionals and inspectors in all areas of environmental concern.

36 **6. SQUARE FOOTAGE.** There are multiple sources from which square footage of a property may be obtained.
37 Information is sometimes gathered from tax or real estate records on the property. Square footage provided by
38 builders, real estate licensees, or tax records is only an **estimate** with which to make comparisons, but **it is not
39 guaranteed**. It is advised that you have a licensed appraiser determine actual square footage.

40 **7. CURRENT VALUE, INVESTMENT POTENTIAL, OR RESALE VALUE OF THE PROPERTY.** A
41 true estimate of the value can only be obtained through the services of a licensed appraiser. No one, not even
42 a professional appraiser, can know the future value of a property. Unexpected and unforeseeable things happen.

43 **NOTE:** A real estate licensee's Comparative Market Analysis (CMA) or Broker's Price Opinion (BPO), etc.,
44 while sometimes used to set an asking price or an offer price, is **not** an appraisal.

45 **8. BOUNDARY LINES, EASEMENTS, ENCROACHMENTS, ROAD MAINTENANCE, AND**
46 **ACREAGE.** A survey can provide helpful information, including whether the road to the home is a public or
47 private road. It is strongly advised that you secure the services of a licensed surveyor for a full-stake boundary
48 survey with all boundary lines, easements, encroachments, flood zones, road information, total acreage, etc.,
49 clearly identified. It is also advised that you **not** rely on mortgage loan inspection surveys, previous surveys,
50 plat data, or Multiple Listing Service (MLS) data for this information, even if acceptable to your lender.

51 **9. ZONING, CODES, COVENANTS, RESTRICTIONS, AND RELATED ISSUES.** Zoning, codes,
52 covenants, restrictions, home owner association by-laws, special assessments, city ordinances, governmental
53 repair requirements and related issues need to be verified by the appropriate sources in writing. If your projected
54 use requires a zoning or other change, it is recommended that you either wait until the change is **in effect** before
55 committing to a property or provide for this contingency in your Purchase and Sale Agreement.

56 **10. UTILITY CONNECTIONS, SEPTIC SYSTEM CAPABILITY, AND RELATED SERVICES.** The
57 availability, adequacy, connection and/or condition of waste disposal (sewer, septic system, etc.), water supply,
58 electric, gas, cable, internet, telephone, or other utilities and related services to the property need to be verified
59 by the appropriate sources in writing (including but not limited to fire protection). You should have a
60 professional check access and/or connection to public sewer and/or public water source and/or the condition of
61 any septic system(s) and/or wells. To confirm that any septic systems are properly permitted for the actual
62 number of bedrooms, it is recommended that sellers and/or buyers request a copy of the information contained
63 in the file for the property maintained by the appropriate governmental permitting authority. If the file for this
64 property cannot be located or you do not understand the information contained in the file, you should seek
65 professional advice regarding this matter. For unimproved land, septic system capability can only be
66 determined by using the services of a professional soil scientist and verifying with the appropriate governmental
67 authorities that a septic system of the desired type, size, location, and cost can be permitted and installed to
68 accommodate the size home that you wish to build.

69 **11. FLOODING, DRAINAGE, FLOOD INSURANCE, AND RELATED ITEMS.** It is recommended that you
70 have a civil or geotechnical engineer or other independent expert determine the risks of flooding, drainage or
71 run-off problems, erosion, land shifting, unstable colluvial soil, sinkholes and landfills. The risk of flooding
72 may increase and drainage or storm run-off pathways may change. Be sure to consult with the proper
73 governmental authorities, elevation surveyors, and flood insurance professionals regarding flood and elevation
74 certificates, flood zones, and flood insurance requirements, recommendations and costs.

75 **12. CONDEMNATION.** It is recommended that you investigate whether there are any pending or proposed
76 condemnation proceedings or similar matters concerning any portion of the property with the State, County and
77 city/town governments in which the property is located. Condemnation proceedings could result in all or a
78 portion of the property being taken by the government with compensation being paid to the landowner.

79 **13. SCHOOL DISTRICTS AND OTHER SCHOOL INFORMATION.** It is advised that you independently
80 confirm school zoning with the appropriate school authorities, as school districts are subject to change. Other
81 school information (rankings, curriculums, student-teacher ratios, etc.) should be confirmed by appropriate
82 sources in writing.

83 **14. INFORMATION ABOUT CRIMES, METHAMPHETAMINE PROPERTIES, OR SEX OFFENDERS.**
84 You should consult with local, state and federal law enforcement agencies for information or statistics regarding
85 criminal activity at or near the property, the presence of methamphetamine manufacturing, or for the location
86 of sex offenders in a given area.

87 **15. LEGAL AND TAX ADVICE.** You should seek the advice of an attorney and/or certified tax specialist on any
88 legal or tax questions concerning any offers, contracts, issues relating to title or ownership of the property, or
89 any other matters of concern, including those itemized in this Disclaimer Notice. Real estate licensees are **not**
90 legal or tax experts, and therefore cannot advise you in these areas.

91 **16. TITLE INSURANCE EXPENSES.** As the Buyer of real property, you have the right to obtain an Owner's
92 Title Insurance Policy to protect your ownership. Once purchased, an Owner's Title Insurance Policy protects
93 you for as long as you own the property (and potentially longer). There are two main types of title insurance
94 policies available to the Buyer: (a) a Standard policy (which covers many claims affecting the land) or (b) a
95 "Homeowner's" policy. The Homeowner's policy covers all the claims of a Standard policy – but it is also an
96 expanded policy providing multiple additional coverages not included in the Standard policy, e.g. post policy
97 issues such as an attempted fraudulent deed conveyance. Unlike other title protection alternatives (e.g. attorney
98 title opinion letters) both the Standard and the Homeowner's policy are regulated products provided by
99 insurance companies licensed under Tennessee law. It is the Buyer's responsibility to seek independent advice
100 or counsel prior to Closing from Buyer's Closing Agency regarding the availability and coverage provided
101 under an American Land Title Association Standard Owner's Insurance policy and, if available, a Homeowner's
102 Title Insurance Policy. For more information, please visit these helpful links: <https://www.alta.org/news-and-publications/> ALTA - Unregulated Title Insurance Alternatives

104 **17. RECOMMENDED INSPECTORS, SERVICE PROVIDERS, OR VENDORS.** The furnishing of any
105 inspector, service provider or vendor named by the real estate licensee is done only as a convenience and a
106 courtesy, and does not in any way constitute any warranty, representation, or endorsement. Buyers and sellers
107 have the option to select any inspectors, service providers or vendors of the buyer's or seller's choice. You
108 are advised to contact several sources and independently investigate the competency of any inspector,
109 contractor, or other professional expert, service provider or vendor and to determine compliance with any 1
110 licensing, registration, insurance and bonding requirements in your area.

111 **18. RELIANCE.** You understand that it is your responsibility to determine whether the size, location and condition
112 of the property are acceptable prior to submitting an Offer on a property. Broker makes no representations as
113 to suitability of a property to your needs. You acknowledge that any images or other marketing materials
114 provided by the seller or brokers involved in the transaction electronically or in print may not display the
115 property's features, flaws, odor(s), or size and that you shall not rely on such images when purchasing a
116 property.

117 **19. MARKETING MATERIALS.** You acknowledge that photographs, marketing materials, and digital media
118 used in the marketing of the property may continue to remain in publication after Closing. You agree that
119 Broker shall not be liable for any uses of photographs, marketing materials or digital media which the Broker
120 is not in control.

121 **The Buyer/Seller acknowledges that they have not relied upon the advice, casual comments, media
122 representations or verbal representations of any real estate licensee relative to any of the matters itemized
123 above or similar matters. The Buyer/Seller understands that it has been strongly recommended that they
124 secure the services of appropriately credentialed experts and professionals of the buyer's or seller's choice
125 for the advice and counsel about these and similar concerns.**

2 Criminals use many methods to steal our money, even when we are buying or selling a home – particularly involving wire fund
 3 transfers. Scammers typically will send an email that APPEARS to be from your agent, broker, lender, or the closing attorney/
 4 closing agency. Be on the lookout for:

- 5 • Phony email addresses (e.g., a slight change in the domain name), authentic-looking fake websites, phony fax
 6 numbers, texts, calls or social media messages from scammers.
- 7 • Any communication requesting information or directing you to a fake website, a criminal's email address or a
 8 criminal's bank account.

9 In preparation for closing, Buyers will often need to wire transfer funds from their personal bank to the closing attorney/closing
 10 agency.

11 **NEVER ACCEPT WIRING INSTRUCTIONS FROM YOUR AGENT OR BROKER.**

12 Initials Initials

13 Rather, you should receive wiring instructions prior to closing from the closing attorney/closing agency or your lender. If the
 14 instructions are sent by email they should be in a secured manner. **DO NOT TRANSFER FUNDS UNTIL** you have verified
 15 the authenticity of the wiring instructions by at least one other independent means, including but not limited to the following:

- 16 • Call the phone number you used on all your prior calls (if the number came from a personally recognized or known
 17 source), or
- 18 • Call the closing attorney/ closing agency or lender after verifying their phone number from a known third party
 19 source, such as the entity's official website and/or public directory assistance (do not take the phone number directly
 20 from the wiring instruction form you received), or
- 21 • Make a personal visit to their office at the address you previously met with them.

22 If you send wiring instructions by email or any electronic means to anyone at your bank or other financial institution in
 23 preparation for closing, **DO NOT TRANSFER ANY FUNDS** until after you verify that the correct instructions were received
 24 by a known representative at your financial institution. Also, it is important to confirm with the financial institution that the
 25 **WIRE INSTRUCTIONS ARE NOT TO BE SUBSTITUTED WITHOUT YOUR PRIOR CONSENT.** Any wiring
 26 instructions sent should be sent in a secured manner. Be especially aware of any request to change any of the original
 27 wiring/money transfer information, change in the person you have been working with on the transaction, or a subtle difference
 28 in their behavior, speech, or grammar. These are some signs of a potential scam. Wiring instructions for closing attorneys,
 29 title companies and lenders rarely if ever change, so any request to change this information should be handled with caution.

30 If you suspect you may be a victim of wire fraud or that you may have received suspicious phone calls, emails, text messages,
 31 faxes, social media messages, emails from a fake address, a change in contact person at your bank or mortgage company, or
 32 changes to wire transfer or financing institutions:

- 33 • **IMMEDIATELY** call your bank and/or mortgage company at the phone number you used in all prior calls.
- 34 • Then, call your agent at the phone number you used in all prior calls.
